

Also available in orange, EarPlugz-PC™ come with a reusable, removable "Pop Cord"

## New EarPlugz-PC™ Modular Hearing Protection System

With EarPlugz-PC™, E.A.R., Inc. has created a cost effective modular ear protection system that provides maximum flexibility for end users to design the product to meet their requirements – for example 3 different sizes with or without removable cords, and/or with or without metal inserts.

- Comes with a reusable, removable "Pop Cord".
- Metal balls can be inserted to be metal detectable as required by the food and paper industries.
- Easy to fit. Since ears come in different sizes EarPlugz-PC™ come in Large, Medium and Small to ensure proper fit.
- With proper care (soap and water, no solvents) these plugs are expected to last 6-12 months.
- Color choices are orange and black.
- Upgradable to custom-fit Chameleon Ears.
- Available in individual packaging or bulk packaging of 50 sets per bag. (See photo of Starter Kit, right).

Upgradable to custom-fit Chameleon Ears

To choose correct size, hold chart below to ear canal. Have an observer choose the size that most closely matches the diameter of your ear canal. Large size is similar to the diameter of a AA battery. Medium similar to AAA battery. If two sizes are a possible fit, choose the smaller size as it will provide more sound suppression.

**Noise Reduction Rating** **28** DECIBELS  
WHEN USED AS DIRECTED

The range of noise reduction ratings for hearing protectors is approximately 0-30. Higher numbers denote greater effectiveness.
